Certification Catalog

o9

Join the growing community of professionals earning o9 Academy Certifications.
These Certifications are intended for o9 Clients and Partners, as well as practitioners interested in advancing a career in Supply Chain. Earning these certifications is a way to validate proficiency and differentiate yourself from your peers.

Why pursue Certification at o9 Academy?
Certifications are the credentials that recognize and validate one's knowledge and expertise. These programs involve a specific period of education and training. When the period of the certification program ends, you get a certificate of completion.
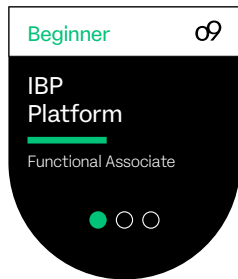

- The curriculum of these courses are designed in such a way that it caters to different levels, i.e., beginners, intermediate, and advance level.

- These courses provide in-depth knowledge of Supply Chain Management, Supply Planning, & Demand Planning related concepts needed to perform a task efficiently.

- These courses are role (Functional & Technology) focussed and provide a wide range of skills to an individual, so that he/she can perform well when dealing with complex projects, customers, and multiplatform environment.

Members of our alliance partners are entitled to discounts.
